ENVIRONMENTAL POLICY STATEMENT

Quest Precision Engineering Ltd recognises the importance of environmental protection and is committed to operating in full compliance with all environmental regulations, legislation and approved codes of practice relating to the organisation's overall business activities.

It is the Organisation's objective to operate with, and to maintain good relations with all interested parties and we will undertake to:

- Assess and regularly re-assess the environmental effects of the Organisation's equipment plant and operations.
- Adhere to all relevant regulations concerning waste and environmental well-being.
- Ensure that all sub-contractor operations are in-line with this policy, and that they are aware of their respective responsibilities in the environment.
- Train all employees in environmental issues.
- Minimise the production of waste.
- Minimise material wastage and actively promote the use of recyclable and renewable materials.
- Minimise energy wastage.
- Reduce and/or limit the production of pollutants to water, land and air. All waste is disposed of under controlled conditions when re-cycling and/or the re-use of the materials is not an available option.
- Control noise emissions from operations.
- Minimise risk to the all interested parties from Organisation operations and activities

This policy is communicated to all employees and will be made publicly available upon requests.

All personnel understand their obligations under this policy statement and will abide with the principals and contents of the Integrated Management System Manual.

The company constantly monitors and reviews its environmental performance and this Environmental Policy Statement in order to ensure its continuing suitability, and will seek to implement improvements throughout the organisation.

Colin Cromar
